

Compagnie Nationale du Rhône

## CERTIFICATE OF CAPACITY

I, sub igneous Mr Mathieu BARILONE, according to my position of Project Owner

Hereby certify that **EVITECH** Company,  
Located 3, rue BUFFON, 91400 ORSAY, France

Has realized for **COMPAGNIE NATIONALE DU RHONE**  
During year **2010**

The following performances:

Installation of an Intelligent Survey Video System using the JAGUAR software to complete the already existing video survey at the Port of Lyon according to the following goals:

- Safety – Security :
  - Survey of the stop and park forbidden zones
  - Survey of the road and pedestrian accesses to our site classified at the High Level of the SEVESO scale
  - Survey of the vehicles' speed and traffic way in the streets of the Port
  - Survey of the river accesses with thermic cameras to detect boats as small as Jet-skis
  
- Management :
  - Counting of road traffic separately for 2-wheels engines, cars and trucks

Those services have been done in the negotiated lead-time with respect of the specific rules of the activity. The detection of the real incidents succeeds at 100%. In average there is less than 1 wrong alert per day and per camera.

This certificate has been done for all legal uses and purposes.

Done in Lyon, France, September the 13th, 2011
